

Endress+Hauser invests in sensor technology

Subsidiary Innovative Sensor Technology IST AG expands its plant in Ebnat-Kappel, Switzerland

Innovative Sensor Technology IST AG, part of the Endress+Hauser Group, continues its growth path. On 24 May 2019, the sensor specialist officially opened an expansion of its plant in Ebnat-Kappel in eastern Switzerland. The facility, built at a cost of nearly 15 million euros, now offers double the floor space.

Mirko Lehmann, CEO of Innovative Sensor Technology IST AG; Matthias Altendorf, CEO of the Endress+Hauser Group; and Klaus Endress, President of the Supervisory Board at the Endress+Hauser Group, welcomed numerous customers, partners, representatives from politics and business and employees to the dedication ceremony. "The growing demand for innovative sensors, and the corresponding strong growth at Innovative Sensor Technology IST AG, made it necessary for us to expand the facility. We're confident that we have created the space we need to produce even more innovations," said Matthias Altendorf, CEO of the Endress+Hauser Group.

Growing demand

The 13,500-square-meter plant includes roughly 3,700 square meters of production space, 1,500 of which is set aside for clean rooms. The office facilities and cafeteria were expanded as well. The expansion was necessitated by the increasing demands on production and the growing space requirements. Since moving to Ebnat-Kappel in 2012, Innovative Sensor Technology IST AG has doubled the number of employees at the location to nearly 200. The employees moved into the new facility after the 18-month construction project was completed in early 2019.

Innovative Sensor Technology IST AG

Headquartered in Ebnat-Kappel in eastern Switzerland, Innovative Sensor Technology IST AG is one of the leading manufacturers of physical, chemical and biological sensors, specializing in the development and manufacturing of thin- and thick-film platinum and nickel RTD temperature sensors, thermal mass flow sensors, capacitive humidity sensors, conductivity sensors and biosensors. The company, with 400 employees around the world, has been part of the Endress+Hauser Group since 2005.

Dedication ceremony: Mirko Lehmann (CEO Innovative Sensor Technology IST AG), Peter Anderegg (CFO Innovative Sensor Technology IST AG), Christian Spoerlé (President of the commune of Ebnet-Kappel), Matthias Altendorf (CEO Endress+Hauser Group), Klaus Endress (Supervisory Board President Endress+Hauser Group), Bruno Damann (St Gallen State Councilor), Philipp Buchs (architect) and Jörn Lützen (COO Innovative Sensor Technology IST AG) officially open the expansion of the facilities of Innovative Sensor Technology IST AG.

The Endress+Hauser Group

Endress+Hauser is a global leader in measurement instrumentation, services and solutions for industrial process engineering. The Group employs approximately 14,000 personnel across the globe, generating net sales of over 2.4 billion euros in 2018.

Structure

With dedicated sales centers and a strong network of partners, Endress+Hauser guarantees competent worldwide support. Our production centers in 12 countries meet customers' needs and requirements quickly and effectively. The Group is managed and coordinated by a holding company in Reinach, Switzerland. As a successful family-owned business, Endress+Hauser is set for continued independence and self-reliance.

Products

Endress+Hauser provides sensors, instruments, systems and services for level, flow, pressure and temperature measurement as well as analytics and data acquisition. The company supports customers with automation engineering, logistics and IT services and solutions. Our products set standards in quality and technology.

Industries

We work closely with the chemical, petrochemical, food & beverage, oil & gas, water & wastewater, power & energy, life science, primaries & metals, renewable energies, pulp & paper and shipbuilding industries. Endress+Hauser supports its customers in optimizing their processes in terms of reliability, safety, economic efficiency and environmental impact.

History

Founded in 1953 by Georg H Endress and Ludwig Hauser, Endress+Hauser has been solely owned by the Endress family since 1975. The Group has developed from a specialist in level measurement to a provider of complete solutions for industrial measuring technology and automation, with constant expansion into new territories and markets.
